2009	XVIII	Congress: Rome
→ 2012		XIX Congress: Bremen

Idea of the Congress

This is the 19th International Hypnosis Congress of the International Hypnosis Society, which dates its inception from 1889, and which has taken place every three years since 1973. The congress brings together leading experts from all over the world who represent a wide range of hypnotic skills, theoretical orientations and research interests. Almost 300 renowned hypnosis experts from over 30 countries have replied to our invitation and will contribute to the congress. The ISH congress offers a pleasant atmosphere for speakers and participants from all over the world to meet, to exchange ideas and learn from one another.

Structure of the Congress

The congress will offer a range of learning components with 3 hour workshops, 1.5 hour short courses, lectures series, panel discussions, symposia and keynote speeches. There will be many parallel events from which to choose what is most interesting for you and your work.

Congress Languages

German and English (and French)

The keynote presentations will take place in the largest room of the Conference Center as well as the largest workshops. These largest events will have simultaneous translation (German, English and French). All other presentations, in German or English, are without translation. Because we have many registrations from France a few workshops are in French language. There will be about 15-17 parallel events in English and German.

Congress Center

Homepage und Abstracts

Please visit our congress website www.hypnosis-congress.com to also look for additional and also new information. There we will also post changes in the program as they may occur in time until the congress, so it's worthwhile to have a glance at it once in a while. On the website you will also find all abstracts as well as CVs of the faculty.

The Congress Center

Bremen, the port city on the Weser River, looks back on over 1200 years of history. It is located in the north of Germany. The Congress Center of Bremen is located in the heart of the city, only a 100 meters from the main train station and easily accessible by all means of transportation. The magnificent Citizen Park of Bremen is within a 5 minutes walk and offers the opportunity to spend the lunch break in a lush green environment.

The City of Bremen

The free Hanseatic City of Bremen is the 10th largest city in Germany with 550.000 inhabitants. With 40 million visitors and around 1.4 million overnight hotel stays yearly Bremen is among the 10 most popular destinations in Germany. The Bremen City Hall and the „Roland“ statue are counted among the UNESCO World Heritage Site. More information about the most famous sight seeing points of interest can be found on www.bremen.de/tourism.

Citizen Park of Bremen

Market Square

Bremen Town Musicians

Cultural Program

We will have some famous artists for a humorous and entertaining cultural program. You will find them at the end of each day of the program in this brochure (p. 18, 25, 34, 38-39). All events are precisely chosen as they will be mostly nonverbal entertainment so that all non-german speaking congress guests are welcome to join those events as well. Additionally on Friday evening, directly in front of our Congress Center „The Freimarkt of Bremen“ will take place. This is the largest feast of the North, with an almost 1000 year old tradition, which predates the famous Oktoberfest in Munich by several hundred years.

International Society of Hypnosis

The International Society of Hypnosis ISH is comprised of about 40 member associations from all the continents around the world. In addition, the leading hypnotherapists and researchers are organized as individual members in the society. The ISH publishes a scientific journal (IJCEH), a quarterly newsletter and bestows five awards, which are given every three years at international congress.

The “Bremen Town Musicians”

This universally known fairy tale of the Brothers Grimm tells the story of cock, cat, dog and donkey. Their owners think they are too old and therefore want to kill them. The animals manage to escape and by chance meet afterwards. They follow the donkey's proposition to become town musicians in Bremen and set out for Bremen. Finally, in conjoint “utilization” of their resources and strengths, they manage to seize the house of a band of robbers and decide to stay there. Contrary to the Bremen Town Musicians, the international hypnosis-world is planning to actually reach Bremen and unfold their skills, resources and combined creativity there. The hosts strive to “rock” the congress in every single way granting an ideal basis to unfold the collective creative potential.

Pre-Congress-Workshop 1

(Congress Center Bremen)

WS1: Michael Yapko

The Merits of Clinical Hypnosis in Psychotherapy: Enhancing Treatment Experientially

(Tuesday 16.10.12, 11-18:30, lunch break from 14-15:30)

The author of the comprehensive book „Trancework – An Introduction to the Practice of Clinical Hypnosis“ 4th revised edition, June 2012, will give an overview of the importance of hypnosis in modern psychotherapy. For advanced colleagues this will be a summary of the state of the art in the field and additionally it is an introduction to hypnotherapy for beginners. The abstract will give you a good impression of what Michael Yapko is planning to teach. www.hypnosis-congress.com

€ 195,-/for congress participants € 110,-

Pre-Congress-Workshops 2+3

(Congress Center Bremen)

The Indian Professors Rajni and Bhaskar Vyas impressed us at our recent congress in Nepal 2010. Bhaskar Vyas is a specialist in plastic surgery who worked in England, USA and India. He was President of the Indian Hypnosis Society as well as the Society for Clinical and Experimental Hypnosis in USA. Bhaskar Vyas is also a philosopher and knows Eastern as well as Western philosophy. He knows Jungian Analysis and Ericksonian Hypnotherapy.

Rajni Vyas is a gynecologist and obstetrician who worked also in USA and India. She was President of the Indian Hypnosis Society. Both are authors of the Indian Handbook of Clinical Hypnosis. They sent several very interesting proposals for the congress and we have chosen two for the pre-congress seminars.

WS2: Rajni Vyas

Positive suggestions in hypnotherapeutic session

(Tuesday 16.10.12, 11:00-14:00)

The Abstract of Rajni Vyas is starting with: Positive psychology is said to be a new concept. In fact, philosophically, it is old wine in a new bottle. Since time immemorial, blessings and prayers were emphatically positive. Rishis of Rig Veda prayed so that good thoughts would come to them from all the sides. Patanjali, a master positive psychologist, first laid out the preparations for spiritual progress by defining what to do and what to avoid.

WS3: Bhaskar Vyas

Age regression and selective ablation of the past for disorders of undiagnosed etiology: A comprehensive hypnotherapeutic strategy

(Tuesday 16.10.12, 16:30-19:30)

Unconscious mind by its very definition is not conscious to the patient/client and, often to the therapist, in spite of his/her refined probing with psychoanalytic tools and perspective insight, he/she fails to decipher the underlying psychodynamics of the subject. Hypnosis is a royal road to unconscious mind.

We assume that Rajni and Bashkar Vyas both will be present the whole time and also will be co-teaching from time to time.

Both workshops together:

€ 195,-/for congress participants € 110,-

Each part individually:

€ 110,-/for congress participants € 75,-

Pre-Congress-Workshop in Krefeld

Brian Alman

Pre-Congress-Workshop 4

(organized by intakkt in Krefeld)

Brian Alman in KREFELD

An exclusive essence of Brian Almans new book – „The Voice“

(Monday/Tuesday 15.10.-16.10.12 each 9.30-18:00)

The book „Self-Hypnosis“ authored by Alman/Lambrou is an international bestselling book that has been translated into many languages. The German edition has sold 37.000 copies. The eagerly awaited new book of Alman is now in print. In Spring 2013 it will be available in German. In this 2 day pre-congress workshop in Krefeld Brian Alman will teach the essence of his new book. After this he will come to Bremen.

Be aware: This Pre-Congress workshop will **NOT** be held at the Congress Center of Bremen but in another city, Krefeld (3 hours by train). Please contact the hosting institut intakkt who is the responsible organizer.

350,- €

Harald Ullmann

SC40: Hypnotic Realities in Psychotrauma
Eric Vermetten

SC41: Subliminal Therapy: A Therapy of the Future
Edwin Yager

20.00

Evening Program

Martin O. – The Dancing Voice (from Switzerland)

Martin O. – the one who „dances with his voice“ – takes us into a world of sounds and harmonies that invariably captures your ear. He not only uses his body as a percussion instrument with a dexterity unnamed, he also uses a sampler which he has mastered to perfection. He creates sounds and twirls in aerial loops, yodels, raps in a range of compositions with almost poetic sounds. His talent as a singer-man-band is worth discovering.

Awards

2012 – National German Cabaret Award
2010 – Best Innovative Newcomer Award Switzerland

ticket price: Until September 10th: € 12,00 (participants presale)

Evening Program Mnozil Brass unravels „Blofeld“

And now everybody is anxiously waiting for their new work. The piece of art to celebrate their 19th anniversary! And rumor has it that, after an operetta, an opera and a concert, the new opus is very much about moving and motion. Untiringly, they were practicing the triple-Rindberger again and again – is what we hear. By all means there's a lot of dancing involved – so much that one member of the band came up with the name «Rhythm and Shoes» for the new production. But Blofeld knew how to avert it. One reason alone being the seriously breakneck stunts their choreographer-in-chief Ferdinando Chefalo is practicing with them. In Blofeld. But seriously: It is currently almost impossible to find a group of musicians being committed to the pledge of the secrets of music theater in a comparable degree as Mnozil Brass is. They are the only ones acting their own orchestra, ballet, chorus and ensemble of soloists – all at the same time. Those seven musicians of Mnozil Brass manage all that without any apparent effort what many an opera director wouldn't even dare to hope in his wildest fantasies. Greed won't fail to appear, you bet. But forget about it. Speaking of secrets: currently, it's all about Blofeld. Presumably one of the last secrets of applied brass music. Perhaps it is one of the really grand and important mysteries of mankind. But why in heaven's name Blofeld? Mnozil Brass will unravel it. Right with us. A celebration!

¹ Hypnose und die Grauzone von „top-down“ Einflüssen
Hypnose et les influences ‘top-down’

13.45-14.00 Closing Plenary

End

Friday 19.10.2012**The Great Cabaret Gala -
THE Highlight at the International Hypnosis Congress****Ken Bardowicks**

charms beyond all clichés and beyond all expectations even more. He will be the presenter of this evening - of course in german and english language as well. We can anticipate an evening to remember!

Winner of the Cape magician Circle Prize Kapstadt
The world's best Stand-up Magician
Special Award of the German Cabaret Award

Strange Comedy

Expect the Unexpected

Shelly Mia Kastner & Jason McPherson are „Strange Comedy“: Combining circus arts, illusion, puppetry, juggling and physical comedy they superbly entertain their audiences around the world. Two Ex-Cirque du Soleil and Cirque Ingenieux Performers intertwine one surprise and ridiculous stunt after the other - non-stop.

Concept: Helge Heynold (HR German Radio)

MonacoBagage

Monaco Bagage are one female musician and 3 male musicians - that is 4 voices but also 21 instruments altogether combining it to a perfect musical fit - with stepdance. In all modesty - they are your quintessential salt in the soup on German Cabaret stages. The Missing link between Cabaret and Music. Briefly: Just extraordinary!

© Sven Hagolani

The Mimusen

Pantomime and Music way beyond Marcel Marceau and Le Coque. The multi award-winning duo will entertain you at the highest level.

Registration & Payment

How do I register for the congress? How do I pay?

On the last page of this brochure you will find a registration form which you can use for fax or regular letters. Online registration is possible via www.hypnosis-congress.com. Online registration will get 5 € off. If you use the online registration you can choose between: remittance, automatic debit transfer system and Paypal. In all three cases an invoice will be sent to you shortly after your registration.

Can lectures/workshops/short courses also be booked separately without registering for the whole congress?

Will there be daily tickets available?

There is the possibility to register for single days. Registrations for single workshops/lectures/short courses are not possible. Single-Day tickets are bookable via the form on the last page or online.

How can I use/redeem a promotion Code?

There is a box for the promotion code on the first page of the online registration. Please enter the code here.

Can I make reservations for single lectures/workshops/short courses?

Yes you can make reservations. Please use the online link that you receive in an extra notification.

What are the conditions to cancel a registration?

Can another person replace me?

If you cancel your participation until Sept. 5th 2012 the participant fee minus a service charge of 30,- € will be reimbursed. After this date reimbursement will not be possible. For a charge of 15,- € your registration can alternatively be transferred to a person named by you, who fulfills the participant conditions.

General questions

Will continuing education credit points/units (CEU) be awarded for the congress?

The congress will be submitted only at the german psychotherapeutic association.

Where exactly will the congress take place?

In the Congress Center of Bremen. This is located directly next to the main train station. The address is: Congress Centrum Bremen, Hollerallee 99, 28215 Bremen.

Where do I find information about hotels in Bremen?

On our website www.hypnosis-congress.com you can find information about hotels.

How do I order tickets for the cultural programs in the evening?

Once you're registered for the congress you will receive a special online link. With this you can make reservations for lectures/ workshops (as mentioned above) but also order your evening tickets. Only exception is Mnozil Brass on Thursday evening, tickets for this event can only be ordered via the website www.suedpolshop.de

Can I order extra tickets for the evening programs for people who are not registered for the congress?

Yes you can also order evening tickets for non-congress participants.

Will there be professional recordings of lectures/workshops and can they be purchased?

Lectures/workshops/short courses will partly be professionally recorded and made available for purchase on site. Those audio and video recordings can be purchased at the booth of „Auditorium Netzwerk“ in the foyer of the Congress Center. Alternatively you can purchase recordings after the congress via www.auditorium-netzwerk.de. Private recordings are not allowed.

Terms and Conditions

In agreement with the Code of Ethics of ISH, I declare to abide by the following: Members should at all times remain aware of their signed undertaking to use hypnosis only for those purposes for which they are professionally qualified and within the strict limitations of their professional work. This implies that those members who use hypnosis for some clinical or therapeutic purpose should have undertaken, or be undertaking, a professional qualification in that therapy recognised by the Health Service, Social Services or Department of Education of their country. Members should only use hypnosis in their work if, and as far as, this is compatible with the rules of their professional association and the terms of reference of their work. They should restrict their use of hypnosis to those problems for which they would be recognized as qualified to undertake within the Health Service, Social Services or Department of Education of their country. In registering for this congress I agree to abide by this code. Furthermore I declare to attend the congress in my own responsibility. Cancellations only can be sent in writing. For cancellations till September 5th 2012 we charge a cancellation fee of € 30. After that date no refunds are made. If the registration payment is not made in due time according to the price dates for each deadline, the responsive price valid at the time of payment has to be paid. If there are cancellations of parts or the whole congress due to unpredictable circumstances like weather, volcano eruptions in Iceland, strikes or other political problems the organizers cannot be made responsible. Your registration is confirmed by your reception of the invoice for the congress.
